

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF CABLE & WIRELESS)	
COMMUNICATIONS, INC. TO INTRODUCE)	CASE NO. 91-200
MEET ME 800 AND CAP 500 SERVICES)	

O R D E R

On May 22, 1991, Cable & Wireless Communications, Inc. ("Cable & Wireless") filed a tariff with the Public Service Commission ("Commission") seeking permission to introduce Meet Me 800 and CAP 500 Services. Cable & Wireless proposed to make the tariff effective June 27, 1991.

Meet Me 800 allows a carrier operator to assign the initiator of a conference call an 800 conference call access number. At a prearranged time, conferees can call the access number and be bridged into the conference call.

The CAP 500 program allows customers to combine multiple locations to receive enhanced volume discounts in accordance with plan rules. Customers would have the option of either receiving a consolidated invoice or separate invoices for each location. These services are generically similar to other service offerings that have been approved by the Commission that are capable of

generating intraLATA traffic.¹ Other related service offerings that are capable of generating "unauthorized" intraLATA traffic have also been approved.²

The Commission, having considered the tariff and being sufficiently advised, HEREBY ORDERS that:

1. Cable & Wireless' proposed tariff shall be made effective pursuant to the provisions of 807 KAR 5:011, Section 9(1), subject to any compensation arrangement that may be ordered in Administrative Case No. 323.³

¹ AT&T Megacom 800 Service was approved in Case No. 9874, AT&T Tariff Filing Proposing Megacom/Megacom 800 Service; AT&T Readyline 800 Service was approved in Case No. 10106, AT&T Tariff Filing Proposing AT&T Readyline 800 Service; and MCI 800 Service was approved in Case No. 10049, MCI's Tariff Filing to Introduce Metered Use Option H.

² These include AT&T's Software Defined Network Service, approved in Case No. 9518, AT&T Communications' Tariff Proposal for Software Defined Network Service; AT&T Megacom Service, approved in Case No. 9874; MCI's Prism I and Prism II Service, approved in Case No. 9828, MCI's Tariff Filing to Establish Prism Plus, Prism I, and Prism II Services, MCI Prism III Service, which became effective pursuant to 807 KAR 5:011, Section 9(1); US Sprint UltraWATS and Advanced WATS Services, approved in Case No. 9902, US Sprint's Tariff Filing Proposing to Rename its WATS Products, Change Billing Calculation Methods for WATS, Introduce UltraWATS, Travelcard, Direct 800 and Ultra 800, and US Sprint Banded WATS Service, which became effective pursuant to 807 KAR 5:011, Section 9(10).

³ Administrative Case No. 323, An Inquiry Into IntraLATA Toll Competition, An Appropriate Compensation Scheme for Completion of IntraLATA Calls by Interexchange Carriers, and WATS Jurisdictionality.

2. Cable & Wireless shall measure and report interstate and intrastate jurisdictional usage and interLATA and intraLATA usage associated with Meet Me 800 and CAP 500 and file usage reports with the Commission on a quarterly basis. These filings should be made under Case No. 91-036.⁴

3. Cable & Wireless shall inform Meet Me 800 and CAP 500 customers that the Commission has not authorized it to market or tariff this service to complete intraLATA calls.

Done at Frankfort, Kentucky, this 2nd day of July, 1991.
